

## Experiment:

### Throwing a Raw Egg

**Problem:** If you throw a **raw** egg against a blanket, will it break?

---

**Guess:** I think that...

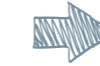

The students can **break** the egg.

The teacher can **break** the egg.

---

**Materials:** Draw the materials used in the experiment.

**Procedure:** Draw the procedure of the experiment.

Get two assistants  
to hold the blanket.

Stand two meters away  
from the blanket.

Throw the egg as  
**hard** as possible.

Will the egg **break**?

---

**Conclusion:**

My guess was **right**.

My guess was **wrong**.

to throw

to catch

raw

to break

soft

hard

### Questions

1 Which of these things will **break** easily? Circle them.

2 Draw one **hard** thing and one **soft** thing.

### Key Points

Fill in the blanks.

1 The blanket is .....

2 We will ..... the egg against the blanket.
